Outsourcing Services

#### **Custom Software**

### Solutions

PromptTech delivers custom software solutions for businesses around the world engaged in a variety of domains through innovative technologies. Our team of expert software developers is committed to ensuring perfection in our bespoke software solutions to realize the specific business goals of our clients.

#### Our Domain of Expertise

- Insurance industry
- Retail and Wholesale Operations
- Point of Sale Solutions
- Distribution Solutions
- Inventory Management
- Real Estate Management
- Sales CRM

#### **Our Hallmark Products**

#### **Laundry POS**

Transform your laundry and dry cleaning service with our POS Laundry Software.

Fully-featured and designed to be user-friendly, the POS software makes it easy to handle laundry operations. Manage inventory, please customers and aim for the next level of business growth when you streamline your business with our POS software.

#### **Realty Manager**

Our innovative Real-estate Management App helps real-estate managers handle all their business operations on the go.

Access customer details, receipts, tenancy contracts, building and unit details and manage utilities and AMC right from the app. Feature-packed and easy to use, we guarantee maximum efficiency and easy growth.

#### **Alacarte**

Alacarte POS software is made exclusively for restaurants, cafeterias and other food-service businesses.

Streamline inventory, billing and accounting on the fully integrated POS platform. Manage all restaurant operations in real time and increase employee productivity all with our innovative POS software.

#### **TWIGS Lite**

The perfect POS software for retail stores to manage their store operations at peak efficiency.

TWIGS Lite POS software helps streamline inventory management, billing and accounting processes so businesses can focus on perfecting their sales. Our retail POS software can be implemented on-premise or hosted on cloud for a more flexible experience.

#### **Easy Salon**

Easy Salon gives you operational control over all salon operations and helps expand to more customers easily.

Built on a state-of-the-art platform, the user interface is designed to be easy to use, with an integrated calendar that keeps track of all appointments and reservations. Supervise staff shifts and manage store inventory - from procurement to allocation and sale, all on the app.

#### **TWIGS Van Sales**

Keep your inventory stocked right with the TWIGS Van Sales software.

We make it possible to handle van sales in real time and improve customer satisfaction with one-time delivery of products. Keep track of all transactions in real time even when offline and sync over cloud so you are always in charge.

# Digital Marketing

Enhancing the digital presence of firms allows them to access a wider audience of potential customers. We help firms become more visible in the online realm through reliable technological tools, improving brand awareness and boosting their brand among a wider audience.

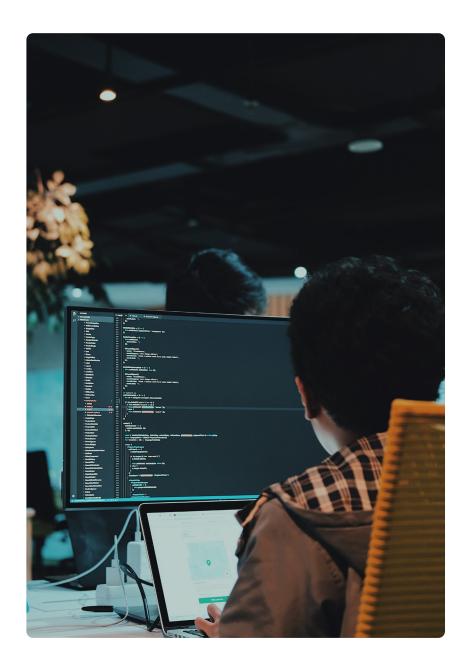

We have the advantage of being familiar with the latest trends in digital marketing owing to our affinity with some of the leading tech firms in India and abroad. We will be your trusted companion on your journey through the digital world.

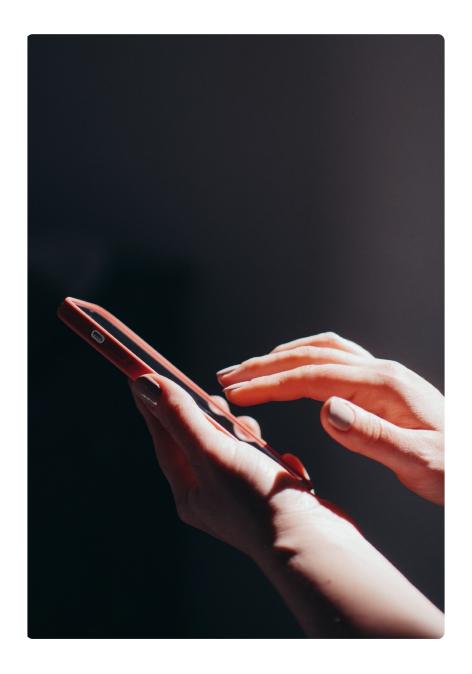

# Website

# Development

Websites with responsive design and engaging content are key to achieving better customer engagement. Our expert design services are aimed at creating truly stunning website designs for higher user traffic. We integrate dynamic plug-ins and secure e-commerce solutions to provide the best user experience possible so users will always return for more.

# Mobile Applications

Embracing mobile technology is the way forward for better customer engagement. Connect to your customers directly through intuitive apps to expand your business. We design impactful and user-friendly mobile apps for an exceptional user experience. Realizing your business goals is guaranteed with our scalable apps that are designed to grow along with your business.

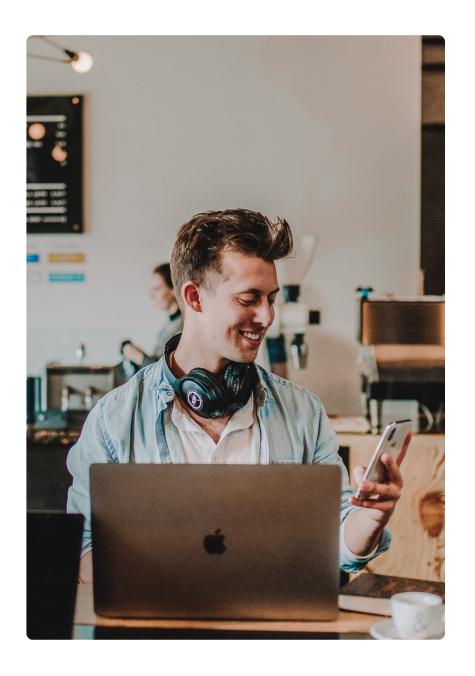

# Outsourcing

## Services

Outsourcing business processes is a highly profitable approach for firms that focus on their core products and services. We provide highly reliable outsourcing services for businesses aimed at consolidating their business processes through streamlined support solutions.

With our world class resources, we can assure lower costs and save you valuable time by realizing your business objectives effortlessly and with complete dedication.

# why work with us

We always think global and act local according to market requirements. Our regional base in Dubai – the digital nerve center of the Middle East – offers us the advantage of geographical proximity to extend our support and delivery model around the world. We established a strong support base in Technopark - this allows us great latitude to keep up with the latest technological innovations implemented by multinational firms.

- Our active engagement in a highly tech-savvy environment assures us the know-how and familiarity with the best technologies to support emerging businesses using innovative solutions.
- We implement these technologies in a cost-effective manner to realize the organizational goals of our clients and help scale their businesses easily.
- The ready access to innovative ideas and the availability of exceptional talent gives us the perfect opportunity to offer our services to clients around the world in a highly economical model.

# PromptTech.

PromptTech is committed to delivering innovative technological solutions to SMEs and larger enterprises across the globe, helping them optimize their business processes, and scale easily using state-of-the-art technologies. Our professionals are dedicated to creating uniquely innovative solutions aimed at maximizing ROI. We are perfectly competent to implement custom software solutions via our global delivery system and help clients around the world succeed in their business goals.
